COMPACT WHILE ROOMY

The right fit for city centre streets with an excellent load capacity.

LONG RANGE AND FAST CHARGING

Up to 351 km with 75 kWh battery. Fast charging up to 100 km in 10 min.

COMFORT ERGONOMICS

Car-like driving comfort, easy to charge and access.

ELECTRIC MADE EASY WITH SMART SERVICES

Easy charging, digital tools, and excellent service to keep your van always available.

Welcome to the city.

Tailored for inner-city missions.

The right fit for city centre streets with an excellent load capacity. Compact and agile, eJolly is perfect for narrow streets and restricted-traffic zones. Despite its size, it offers one of the best payloads in its class, making it ideal for deliveries and urban logistics.

With an exceptional exterior-dimension-to-cargo-volume ratio, eJolly stands among the top performers in its category.

Designed for urban professionals.

eJolly is the ideal van for professionals who transport tools and goods in the city. Its compact dimensions and quick acceleration make every drive smooth and efficient. Purpose-built for inner-city missions, the new eJolly sets the benchmark in the mid-segment. Big payload, 100% electric, extended range, car-driving-license compatible, and designed with car-like comfort.

Compact by Design, big on capability.

eJolly is the smart solution for modern urban mobility. Engineered to deliver maximum comfort and zero emissions, eJolly combines a compact footprint with surprising interior space—perfect for professionals who need efficiency without compromise.

Whether navigating narrow city streets or accessing tight parking zones, eJolly is built to fit—literally and functionally—into the future of urban transport.

Your Office, On the Move — with the New eJolly

Transform your eJolly into a fully functional mobile workspace. You have a choice of one- or two-seater configurations, with essentials within easy reach. The extra cargo version also offers an optional tilting table designed to hold your laptop. Effortless productivity, wherever the job takes you.

Step into a cockpit engineered for comfort and efficiency. Heated seats provide a premium experience, keeping you warm and focused even on the coldest days. The spacious layout offers plenty of room to work, relax, and recharge. And with integrated wireless smartphone charging, you'll stay powered up at all times. The eJolly isn't just a vehicle. It's your office on -the go.

Smart storage, smoother journeys

Designed with the driver in mind, the new eJolly features multiple open dashboard compartments, spacious door pockets, and a generously sized cooled storage area. Everything you need is within reach, making your workday more organized, efficient, and comfortable.

Smart, connected, and built for your workday

The eJolly keeps you in control and connected with advanced infotainment and connectivity features designed to support your daily business needs.

10" full-color touchscreen

The 10" display includes DAB radio, MP3 player and 3 USB ports.

RearView Camera

Enhance visibility and safety with a wide, unobstructed and ultra-clear view of the area behind the vehicle.

Navigation and Smart Routing

Navigation is effortless with to the TOM TOM 3D maps on the 10" touchscreen, as well as Apple CarPlay™ and Android Auto™ integration. With IVECO's Smart Routing service, drivers can plan routes confidently — no more range anxiety.

Stay focused, stay connected

With fully integrated wireless Apple CarPlay™ and Android Auto™, you can navigate, call, message, and stream music directly from the vehicle's display. Use voice commands or intuitive controls to keep your hands on the wheel and your eyes on the road.

Whatever the mission, eJOLLY delivers.

Spacious interior, compact exterior. Silent, sustainable, and smart. eJolly is perfectly sized for city centre streets - including restricted traffic areas - while offering one of the best payloads in its segment to help you handle every delivery and logistics mission.

Urban-optimized dimensions.

With a height of just 1.895 - 1.940 mm, eJolly glides effortlessly through underground garages and low-clearance urban spaces. The two available lengths, 4.980 or 5.330 mm, enable a wide variety of configurations, making it ideal for last-mile delivery, logistics, and city-based operations.

Do more with every delivery.

The new eJolly is built to move more load, smarter. With a maximum payload of 1.288 kg*, it's engineered to help you optimize every route, reduce downtime, and boost productivity.

Thanks to its generous 6,6 m³ load volume and an extended load length of up to 4 meters, you can carry longer and bulkier items with ease. The innovative bench opening design lets you make the most of the cabin space, giving you the flexibility to handle even the most demanding transport needs.

Effortless Access, maximum efficiency.

The eJolly's sliding doors are designed to streamline your workflow. Their wide opening and smooth operation provide quick, convenient access to the rear cargo area—even in tight urban spaces or narrow loading bays. Whether you're loading bulky items or making frequent stops, the sliding doors make every movement faster, safer, and more ergonomic, saving time and reducing effort throughout the day.

100% Electric. 0% Noise. 100% Urban freedom.

The eJolly is built for the city. With its zero-emission electric drive, it drastically reduces both air and noise pollution, making it the perfect solution for urban mobility. Glide silently through city centers and restricted traffic zones with total peace of mind—no engine noise, no stress, just smooth, quiet performance.

Inside and out, the eJolly creates a calm and comfortable environment, ideal for long working days. Whether you're navigating busy streets or making frequent stops, its silent operation helps reduce fatigue and improve overall well-being.

*Driver's weight included in kerb weight.

Charge Simply. Keep moving.

Charge!

The eJolly is built to keep your business moving with minimal downtime and maximum efficiency. Thanks to its DC fast charging capability of up to 100 kW, you can recover up to 100 km of range in just 10 minutes—perfect for quick top-ups between jobs or during short breaks.

For everyday charging, the 11 kW on-board charger ensures reliable performance at public AC stations, home or depot.

Go Further. Work Smarter.

Fast charging times, extended range and two battery sizes to meet your autonomy — all with zero noise: the new eJolly is the ideal van for professionals.

Whether you're making deliveries across the city or managing multiple stops, eJolly gives you the freedom to move without compromise: zero emissions, zero noise, and maximum uptime.

Charging made easy.

Start with IVECO eCharge Packs, the turnkey solution that combines private and public charging in one offer. Power your eJolly at home or in the depot with premium partners carrying the exclusive “Recommended by IVECO” quality label. This includes a 7,4 kW AC Wallbox made in Europe and fully tested for interoperability, plus DC fast chargers for demanding operations.

Enjoy peace of mind with expert installation and multi-year assistance coordinated by the IVECO Customer Uptime Center, and access 1.000.000+ public points and 10.000+ ultra-fast stations using the IVECO eCharge Card, all managed through IVECO ON and the Easy App.

Availability of products and services may vary by country. Please check with your local IVECO dealer.

Two batteries, zero anxiety.

Say goodbye to range anxiety. The 100% electric eJolly is engineered to keep up with your business, offering the flexibility professionals need to stay productive all day long.

- 75 kWh for up to 351 km of range
 - 49 kWh for up to 223 km of range
- (Combined WLTP range – simulated data, subject to change)

Whichever option you choose, eJolly keeps your operations running smoothly—quietly, cleanly, and without compromise.

IVECO

eJOLLY

Line Up.

Find the perfect ally for your urban mission.

Every city has its challenges – and eJolly is ready for them all. Built for zero-emission performance and maximum flexibility, it's the trusted partner that helps you move efficiently, sustainably and without compromise.

Last-mile urban deliveries: completed with ease.

Where efficiency meets responsibility. eJolly offers all the versatility and capacity you need to keep your business moving – combining exceptional range and payload performance to make every delivery clean, quiet and cost-effective.

The perfect partner for municipality jobs.

eJolly is your best companion for small urban maintenance missions. Agile and compact with snappy acceleration, it is the best van in the category in terms of external dimension/volume ratio.

Extreme versatility for specialty applications.

From daily operations to demanding tasks, eJolly adapts to every need. With its generous loading volume and optimised cargo space, it's built to carry tools and equipment with ease – empowering professionals to keep the city running smoothly.

Gross vehicle weight - 2.8 - 3.2 tons						
Load volume (m ³)	Height (mm)	Length (mm)	Motor (kW)	AC charge / DC charge	Payload* (tons)	Battery - Range**
5,3	1.895 - 1.935	4.980	100	11 kW / 100 kW	0,926 - 1,288	49 kWh - 223 km (WLPT)
6,1	1.935 - 1.940	5.330	100	11 kW / 100 kW	0,926 - 1,198	75 kWh - 351 km (WLPT)

* Driver's already accounted in kerb weight.

** Data from simulation could change in future.

Your safe place in the urban jungle.

With advanced technology, your eJolly utilizes its sensors, radar, and camera to continuously monitor the road and surrounding traffic to assist with key driving functions. By helping you maintain safe distances, adapt to changing conditions, and reduce fatigue in demanding situations, it brings you a smoother, safer, and more confident driving experience – so you can focus on enjoying the journey.

1 ADAPTIVE CRUISE CONTROL STOP&GO

Easily activated via intuitive steering wheel controls, Adaptive Cruise Control Stop&Go automatically sets and adjusts vehicle speed to maintain a safe distance from the vehicle ahead. In case the vehicle ahead stops, it brings your vehicle to a complete stop resuming automatically when traffic begins to move.

2 LANE KEEPING

Helps prevent unintentional lane departure using a forward-facing camera mounted on the windscreen. When activated and operational, the system monitors lane markings. If no turn signal is detected, it applies gentle steering corrections to keep the vehicle within lane boundaries or away from the road edge. The system provides tactile feedback through steering wheel torque, accompanied by visual and audible alerts on the instrument cluster, reminding the driver to stay within the lane.

3 INTELLIGENT SPEED ASSIST

Helps prevent speed violations by automatically setting the speed limiter based on information from Traffic Sign Recognition. Using the forward-facing camera, the system detects speed limit signs and adjusts the limiter accordingly.

4 FRONT, REAR AND FLANKGUARD SENSORS

Navigate tight spaces and busy roads with ease. Front and rear sensors, combined with lateral detection (Flankguard), monitor your surroundings and alert you to nearby obstacles—even along the sides.

5 ADVANCED DRIVER DISTRACTION WARNING

Enhances road safety by detecting signs of driver distraction, drowsiness or mobile phone use. A discreet camera on the driver-side pillar continuously monitors attentiveness. If fatigue or inattention is detected, the system triggers visual and acoustic alerts, prompting the driver to rest and refocus. Designed in line with the latest GSR-C regulations, it helps prevent accidents while protecting privacy. The system does not record or store facial images, ensuring full compliance with data protection standards.

6 MULTIANGLE DIGITAL CENTRAL REAR VIEW MIRROR

A new perspective experience next-level visibility. The innovative digital rear-view mirror displays real-time rear and side views, giving you a clear, unobstructed look at your blind spots and surroundings—right where you need it most.

7 180° REAR CAMERA WITH SMART ZOOM AND TOP VIEW

See more, react faster. A high-definition 180° rear-view camera displays a wide-angle image and vehicle top view on the 10" touchscreen. As you approach an obstacle, the system automatically zooms in for a precise view, while audible alerts keep you informed of the distance.

8 BLIND SPOT ASSIST

Keeps an eye on adjacent lanes, warning you of vehicles hidden from view.

IVECO Services Solutions.

The complete development of state-of-the-art vehicles is important to provide our customers with Mobility Solutions that best meet their needs. At IVECO, our goal is to improve the productivity and profitability of our customers' businesses. We do this by maximising vehicle uptime and efficiency, driver safety and environmental protection.

Uptime

To maximize your vehicle's uptime by preventing unplanned stops through proactive monitoring and 24/7 roadside assistance. Rely on Aftersales excellence and EV expert support at certified service points, and plan ahead with uptime notifications, maintenance reminders, and tailored Maintenance & Repair contracts.

Driver Care and Safety & Security

To promote a safer driving style, improve the drivers' performance and increase their safety for a better experience behind the wheel.

Parts & Accessories

Our extensive offer of high-quality parts and services enables you to customize your vehicle and enhance your life on board.

eMobility

IVECO eMobility services enable you to identify the most efficient routes and charging plans, maximise your vehicle's range with remote controls and optimise uptime and energy efficiency with our timely alerts on your vehicle's remaining charge.

Productivity & Efficiency

To reduce energy, optimise routes and improve your drivers' driving style for a more productive and efficient business with lower running costs.

Service bundle.

All vehicles come with a connectivity box installed, enabling activation of the Standard eStart Pack and the option to add Premium Mobility Solutions tailored to your business goals (terms and conditions apply).

Standard service bundle.

eStart Pack

Essential tools to monitor and control your EV, boosting productivity, efficiency, and sustainability.

- **IVECO ON Access.** Fleet visibility through the IVECO ON portal for real-time data and simplified management.
- **Easy eJolly App.** Driver-friendly app for quick access to vehicle status, charging points, and key info.
- **Uptime Monitoring and Management.** Continuous health checks and proactive alerts to prevent downtime.
- **eRemote Control.** Schedule and manage charging and comfort features remotely for cost efficiency and readiness.
- **eRange Assurance.** Accurate range prediction and battery alerts for stress-free planning.

Premium services.

Tailor your Mobility Solution with powerful add-ons:

- **IVECO ON WebAPI.** Integrate fleet data into your systems for advanced analytics and automation.
- **IVECO ON Plus.** Location-based services with live vehicle positioning for smarter job planning.
- **IVECO eCharge Management.** Public charging access with IVECO eCharge Card, simplifying admin and cost tracking.

Premium bundles.

Enjoy comprehensive packs for peace of mind, simplified charging, and improved efficiency:

- **IVECO eCharge Pack.** Combines private chargers and public network access in one solution with a single interface and contract.
- **Driver Assistant.** Extends Smart Routing and infotainment features, adding extra years of connected experience.

Maintenance & Repair.

You can protect the value and performance of your vehicle and your business productivity with a Maintenance & Repair offer.

Our maintenance and repair contracts plans will maximize your vehicle availability and you can rely on our skilled workforce and guaranteed high-quality IVECO Genuine Parts.

Combine the M&R services to build a contract tailored to your needs:

MAINTENANCE

Standard Maintenance is key to keeping the vehicle up and running and is required by law. MAINTENANCE is ideal for customers without their own workshop who want to contain costs.

WEAR

All components creating friction will wear over time and will eventually need to be replaced. Avoid surprises with WEAR.

DRIVELINE

DRIVELINE starts with cover of the most valuable components, which are those that transmit movement to the vehicle.

FULL REPAIR

With FULL REPAIR you can enjoy the full peace of mind of knowing anything on your vehicle needing repairs is covered.

Your IVECO eJolly comes with 2-year FULL REPAIR cover included in the standard warranty.

Choose and combine to meet your requirements:

You can choose the best service* levels for your business size and needs, knowing that the associated costs are fixed and predictable.

ESSENTIAL 
Maintenance

ADVANCED 
Maintenance + Driveline

PREMIUM 
Maintenance + Full Repair

FULL REPAIR 
Driveline + Extradriveline

* Wear selectable as option.

Accessories

ENHANCED EXPERIENCE

IVECO Accessories

Customize your IVECO eJolly to perfectly match your requirements with our high-quality accessories specifically designed to boost your vehicle's efficiency and performance, increase your safety, and enhance your comfort.

Genuine Parts

HIGH PERFORMANCE

IVECO Genuine Parts will keep your IVECO eJolly performing at its best during its long years at your service – and cost-efficiently. With these parts, you will enjoy the peace of mind of knowing they have been rigorously tested for safety, consistency and reliability, and come with a one-year warranty.

IVECO

Assistance Non-Stop

IVECO Assistance Non-Stop is just a phone call away 24 hours a day, 7 days a week to keep your eJolly and your business running.

IVECO Non-Stop is the original IVECO smartphone application that you can use to communicate with IVECO if your vehicle breaks down. Just insert your vehicle information (VIN and registration plate) and with a simple push of a button you can send a request for assistance to the IVECO Customer Uptime Center. We will take care of your request immediately, activate the nearest workshop and follow up on the vehicle's repair. Through the app you can receive updates on the progress of your vehicle's assistance.
